

About Me

Hi, my name is Nuel Mezemir, and I am a passionate front-end developer with a strong dedication to creating user-friendly and visually appealing web applications. I enjoy translating ideas into interactive digital experiences that leave a positive impact.

With a background in software engineering, I focus on mastering front-end technologies and staying updated with modern trends in web development. I thrive on solving challenging problems and continuously improving my skill set.

Outside of coding, I enjoy exploring new technologies, learning about UI/UX design, and working on side projects that help me grow both personally and professionally.

Skills

- Technical Skills: HTML, CSS, JavaScript, Responsive Design
- Tools: Git, VS Code, Figma, Chrome Development Tools
- Soft Skills: Problem-solving, Teamwork, Time Management, Adaptability

Experience

As a front-end developer, I have built projects ranging from simple portfolio websites to interactive web applications. My recent work includes designing and developing responsive user interfaces that enhance user experiences.

- Developed a Task Manager App to streamline daily task organization.
- Created a Responsive E-commerce Storefront using HTML, CSS, and JavaScript.
- Collaborated on building a Weather Dashboard that integrates live API data.
